The rumor went forth a few days ago that scretary Tracy had at last taken a hand in ie fight, and although it was strenuously inied by members of both factions the story ptained partial corroboration in the removal of George E. England from his position in the onstruction Department of the Navy-Yard. Wr. England is a delegate to the General Comlittee from the Eighteenth Ward, is Assistant Secretary of that body, and in the recent fight for delegates worked with the Nathan

people.

The claim of interference from Washington was met with the assurance that Mr. Eng land's suspension was merely a personal matter between him and his superior.

Both Willis and Nathan had kept very quiet about their proposed trips, but fate is said to

shout their proposed trips, but fate is said to have been unkind enough to throw them together on the same train to the Capitol.

However that may be, it is stated with certainty that on the arrival there of these gentlemen Mr. Willis immediately sought the ear of Secretary Tracy, als warm friend and fellow-wardsman. Collector Nathan sought out Secretary Foster.

Neither would talk of the object of his trip when approached by an Evening World reporter this morning, but rumor has it that there is something heavy in the Republican political cloud and that it will arop soon.

The anti-Nathan forces in the Twenty-first ward are said to be combining. Nathan's methods, they claim are costing the party 5,000 votes every year. Probably the most apparent results of the factional fight are noticeable in the newly apportioned Twenty-eighth Ward, where voters are now being enrolled. Among the names registered by the Democrats is said to be that of Capt. J. B. Christoffel, a prominent and lifelong Republican, and it is followed by the signatures of sixty-two other late Republicans.
